

McWeadon

Enabling Learning Without Boundaries

CAD201: Computer Aided Design: Drafting and Detailing

Are you a contractor, interior designer, remodeling contractor, or would just like to learn how to design architectural and mechanical products using AutoCAD 2010? Maybe you are an experienced AutoCAD user and would like to learn some new tips and tricks or want to learn how to use the newest version of AutoCAD. If this sounds like you, then this is the course for you.

McWeadon is currently offering *CAD201: Computer Aided Design: Drafting and Detailing*, a 4-week online course with special discounted rate of **\$99**. McWeadon instructor Mark Seward will be your personal coach and guide as you develop your skills in the course.

Learn in a highly facilitated environment at your convenience. Our instructors are personally accountable to ensure the utmost quality and interaction and the effectiveness of this valuable learning environment.

WHAT YOU'LL LEARN

This course is a very hands-on course that demonstrates the principles and fundamentals of design using AutoCAD 2010. This course will teach learners' the basic commands of AutoCAD and how it is used in the architectural and mechanical industries. This course will also cover various output files used to communicate your designs with your customers or colleagues.

Course participants will be able to:

- Design 2-d designs using AutoCAD for engineering or architectural developments including documenting and detailing.
- Design architectural or mechanical products from beginning to end using industry standard techniques and practices.
