Enabling Learning Without Boundaries

ET529: Evaluation and Development of Second Live for Education and Training

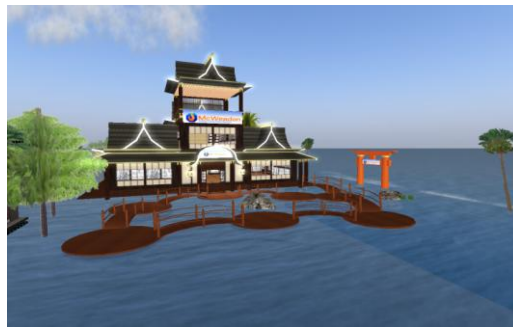

McWeadon is currently offering *ET529: Evaluation of Second Life for Education and Training*, a 4-week online course with special discounted rate of **\$99**. In this course, McWeadon instructor Dr. Alice Bedard-Voorhees provides evaluation tools to help you consider how to structure organizational and higher ed learning experiences in Second Life.

Learn in a highly facilitated manner at your convenience. Our instructors are personally accountable to ensuring the utmost quality and interaction, and the credibility of this valuable learning environment.

WHAT YOU'LL LEARN

ET529: Evaluation and Development of Second Live for Education and Training

This course is for participants who already have an avatar and can move and teleport in Second Life. This workshop allows participants to consider options for structuring Second Life experiences: by visiting existing sites in Second Life, by considering whether experiences will be part of a hybrid course or events in Second Life, and whether these will occur in rented or purchased spaces. Using standards provided by Khan's integrated e-learning model, participants will also learn to consider quality for Second Life offerings. Participants will not only have the opportunity to visit and learn about sites that might support his or her instructional interests for Second Life, they will also be provided with a checklist to help develop a plan for his or her own offering in Second Life.
