

## International Students

We are headquartered in the United States.

In addition to our American based instructors we have highly qualified facilitators in many locations around the world. All our instructors and facilitators have been selected for their academic and professional credentials. We have included the instructor/facilitator bio and credentials under the appropriate Course Offering.

We welcome and encourage International students to take our courses. As our courses are presently offered in English language, our international students must be proficient in English in order to complete the coursework.

For additional information please contact us.
